

A better service for less money. Interested? You should be...

best service + best price = best value for money!

Continued from page 1

We've spent a lot of time over the past year looking into ways we can make life easier for our clients and after speaking to a number of developers, we discovered that providing some of the most competitive rates on the market was only part of what you want from us.

We offer a range of products and services, including structural warranties, Building Control, Code for Sustainable Homes assessments, SAP assessments, air pressure and acoustic testing and Home Information Packs. In fact, we offer such a wide choice of services, we think you'll struggle to find another provider who can offer you the same product range.

But it's not just about what we offer; it's the way we provide these services to our clients.

We've created our services around your needs and the needs of your developments.

The synergies between our products means that the more you purchase from us, the more straightforward and cost-effective they become.

For example, where possible your structural warranty inspector will be the same surveyor as your Building Control

inspector and should you need Code for Sustainable Homes assessments, they'll carry out this work for you too. By using multi-skilled surveyors, we're able to maximise the benefits of time spent on site, and in turn reduce costs for our customers. It also means that communication is improved, administration is reduced, and your surveyor will be fully aware of everything happening on your site.

Simple really, and we didn't stop there.

Technical assistance is always free and will be provided by someone who is experienced, qualified and has an in-depth understanding of you, your company and the sites you're working on. Also, if you need us to, we're more than happy to visit you at your offices to discuss any technical issues you might have.

If you've used us before, then we're sure that you'll like our new approach to the way we work, and if you haven't used us then why not give Premier Guarantee a go? We can virtually guarantee we'll save you money (up to 20% in some cases!) and even if we can't we promise you'll receive service levels you won't find anywhere else.

For more information on our best value service, contact us today on: 0151 650 4343.

When we approached **Premier Guarantee**, they based their **services** around **our company**, making sure we were **central to everything** they did. The **synergies** **between** their services have **allowed us** to **make significant savings** while **reducing the strain** on our internal staff. By **making our lives easier**, the decision to give **Premier Guarantee** the opportunity to **work with us** was a **straightforward** one.
